WHEN SHOULD I TAKE THE COMPASS TEST?

Once you have made your decision to enroll at SEARK College, the COMPASS Test should be taken early in the enrollment process.

If you have recently taken the ACT test and scored less than 19 on any subject area you are required to take the COMPASS Test in that subject area.

Most importantly, you should take the COMPASS Test only after you fully understand the importance of the test and feel you are fully prepared academically by studying for the test, mentally by approaching the test with a positive attitude, and physically by getting adequate rest prior to taking the test.
